Project Experience

Learning outside the school:

- ❖ **Visited in beijing for further learning** :In July 2013 ,we visited in Beijing for further learning, Mainly in the computation of the Chinese Academy of Sciences Institute of technology, Institute of software, network center, Google, Microsoft Research and Baidu Corporation. I served as a captain and benefited a lot from this activity.
- ❖ **Annual Meeting of viryafoundation**:In 2011 and 2012 , I attended the Annual Meeting of the Hong Kong viryafoundation and served as the captain of Jingjin aixin society from University of Science and Technology in 2012.

National Students' Innovative Business Plan:

Dooxue network is established by the USTC students--- a platform for booking high quality courses. As the dooxue network co-founder and the school's technical director,now I'm responsible for the overall development and design of the site .

Web development experience:

- ❖ Tutoring Forum of USTC (<http://jiajiao.xubo245.com>)
Tutoring Forum of USTC not only serves the senior school students and their parents to look for the right tutor from USTC students convenient but also offer the free platform to USTC students so that they can be able to choose the part-time job as a tutor they want. development of USTC tutor forum .
Now I am this web master and responsible for the overall operations and development of USTC tutor forum .
- ❖ 1011Class Home (<http://www.xubo245.com/1011>)
1011 Class Homepage is only for our own profession students to exchange the latest news. It mainly provides courses arrangements, the information of teachers and teaching assistants, future work, the

experiments, the test notice and other latest information ! There are about 110 people in our class and the pv broke ten thousand using 66 days .

I am responsible for the site development and information updates.

- ❖ 1011Class Forum (<http://www.xubo245.com/1011/bbs>)

To better promote communication between our class,I have established 1011 Class Forum.any students in our class can release information and comments they want to express.

As the web master,I am accounted for the site development and design, as well as updating and maintenance.

- ❖ The website of Jingjin Aixin community (<http://jjs.ustc.edu.cn>)

To propagate our community ,we established the website of Jingjin Aixin community, we publish dynamic information, including notification and latest news, to facilitate management of community .

I used to be the president in 2012, now I participate in maintenance of the website and issue the information about our community.

- ❖ Adjianzhi Forum (<http://www.adjianzhi.com>)

Adjianzhi Forum is a completely free forum for the students of Anhui University to hunt for part-time job, it also offers campus agencies a platform for recruitment .those who want to hone their own in college and improve themselves,it's a good choice for you !

As this website deputy chief., I am responsible for the build of this website, secondary development and maintenance.

- ❖ Codeyears Forum (<http://www.codeyears.com>)

Codeyears Forum-witness program in those years, is a programming technology forum.

I am responsible for the site to build and secondary development, and maintenance. My website is now deputy chief.it's a good platform to share the ideas between programming-lovers.

- ❖ Flowerriver tile factory of Liuyang City (www.liuyangzhang.com)

Flowerriver tile factory is located in Liuyang Hunan Province and it is a private enterprise,This web is used for expanding propaganda and attracting people to buy its product.

I am fully responsible for this website,including the design,development and maintenance of site . Now I try to optimize this website and it's in the improved state.

Laboratory experience:

- ❖ Multi-Agent Systems Lab (<http://ai.ustc.edu.cn>)

I joined WrightEagle hardware team of USTC ulti-Agent Systems Laboratory. Guided by Professor Xiaoping Chen,I Participated in the hardware and control research. I learned to draw Stereo diagram by using solidworks and Auto CAD drawing software, such as perspective view, designing robotic shell and optimizing mechanical arm structure.Also I had some understanding of 3D printer.

- ❖ Wireless Network Lab (<http://staff.ustc.edu.cn/~xinming>)

In July 2013, I joined USTC Wireless Network Laboratory.My Professor is Xinming Zhang,his research area is High performance network broadcast mechanism for asynchronous sensor network.

Experience in school

- ❖ vice monitor of chool of information class 1

During the first year in my university, I was the vice monitor in my class and I assisted monitor to perform day-to-day management of affairs and won the "the excellent league" title.

- ❖ Vice president of the bicycle association in USTC

Between 2011 and 2012, I served as the vice president of the Cycling Association of USTC. I participated in bicycle-riding activity,and went to the Shushan Mountain and Swan Lake, also we went to Zipeng Mountain spring which is about 66km far away from the start with members of community,I enjoyed this way to relax myself as well as get exercise.

- ❖ assistant director and president of sophistication Aixin in USTC

Between 2011 and 2012,I was an assistant of the Jingjin Aixin community's president. From 2012 to 2013,I served as the president of Jingjin Aixin community . During my

tenure,I organized activities positively ith my group so that our community could get continuous progress.Now the community has been the independent of community rater than a little branch and the number of members has increased by 50%.

- ❖ Participated in volunteer activities, voluntary blood donation of 1000 ml.
- ❖ Work study program, to earn their own living expenses. During the university to maintain economic independence, has been nearly three years.

Honors
